CAD

Equipment

Spray Gun

Professional gravity-fed aluminium spray gun with a 560ml cup capacity.

Digital Scales

For accurate weighing of colourants. Accurate to 0.1g with 3Kg capacity.

Mixing Station Lid

Spare lids and paddles for mixing station.

Mixing Station

The colorant and agitator rack storage system has space for up to 24 pots that ensures the pigments do not separate in the colours by stirring automatically for a minimum of 10 minutes every 8 hours. The equipment runs on European 220-240V electrical systems.

Consumables

SuperCups

Pack of 50 x 600ml. With ratio marks and lids.

Mixing Sticks

Pack of 100.

Flushing Fluid

1 litre. For cleaning of hoppers and spray gun.

RegaClean No.1

5 litres or 500ml. For glass preparation.

Application Adhesive

310ml cartridge.

Colour Guides

Pantone Guide

Solid Coated - 1114 colours.

RAL K7 Guide

210 colours.

BS Guide

475 colours.

NCS Guide

1950 colours.

Colour Savvy

Digital Colour Identifier.

Click on any surface, such as a painted wall, rug, brick, wood, or fabric swatch and in seconds, compare it against the database to identify the best match. The results appear on an LCD display. The unit is preloaded with the NCS and BS color ranges. RAL can be added for an additional fee.
